Trepko 780 series provides packaging solution of single bricks or bar-shaped packages into cartons of retail size. Products are collated into a given pack pattern and moved into preformed carton blank. Correct seal of the packaging is ensured by gluing on the long side of the box.

The 780 series have a capacity of 60 boxes/min, matching even the highest brick wrapper capacities. A standard Trepko interface guarantees perfect integration with upstream and downstream Trepko equipment. A simple format system enable changeovers in less than 15 minutes and allows the 780 series to cater for a great variety of stick and box patterns. This way you can continuously match all your consumer requirements and the changing retail market trends.
