

MAKE MONEY FROM DAY ONE

Investment decisions normally involve a considerable risk level due to their long term consequences. In today's business life success is built on fast decision-making and the quick seizing of opportunities. Therefore, flexibility has become the keyword. TREPKO now comes up with a solution that makes it possible to react fast, without having to make decisions with long-

term consequences: The TREPKO Rental Program.

TREPKO's Rental Program is ideal for:

- a temporary increase of capacity,
- market tests,
- financing your production.

TREPKO's Rental Program is designed for standard TREPKO machines which can be chosen from the wide TREPKO range. Within the rental program, the customer agrees to a flat monthly rate, and reserves the option to either return or even buy the machine at a later stage. A minimum input with a maximum output will allow you to make money from day one.

RENTAL MACHINE EXAMPLES

Forming, Filling & Sealing machines

The TREPKO 9000 Series of Form Fill Seal Machines makes an attractive offer to enhance profits by controlling costs and maximizing production capacity. Thermoformed packaging is very cost-effective compared to preformed packaging. In many instances it may provide a **60% saving** on the packaging costs, whereby the savings more than compensates for the machine rental. Thermoforming machines further more reduce the need of large storage areas for empty packaging and for ordering minimum quantities. Furthermore, there is a lower packaging transportation cost because no air is being transported.

Brick Forming & Wrapping machines

The 800 Series of Brick Forming and Wrapping machines offers a market competitive and effective solution for a wide range of capacities. Moving from packing butter or margarine in cups, to wrapping them in foil, normally requires great investments, but will also often result in more than a **90% saving** on packaging costs. Through TREPKO's rental program you will not need to make a great investment, and you will enjoy a packaging cost saving from day one more than compensating for your rental costs. This solution is suitable for viscous products such as butter; butter with vegetable oils, margarine, minced meat, lard, and yeast.

Rotary Cup Filling & Closing machines

The 200 Series of Rotary filling machines which provides flexible and effective solutions for filling and closing of pre-formed containers. Within the TREPKO Rental Program, there are 3 different frame sizes (210, 220, 230) and a list of standard TREPKO machine options available depending on the customer's needs. Trepko's rotary solution gives the customer maximum output while utilizing minimal floor space.
