# Discover the Trepko Wrap Around Machine: Unleashing Packaging Versatility

## Packaging Solutions Tailored to Your Needs

Trepko Wrap Around Machine is a true game-changer in the world of carton packing. Offering unparalleled versatility and efficiency, Trepko machine is designed to adapt precisely to your packaging requirements, providing a seamless and stable packaging process.

## Flexibility Redefined

Trepko Wrap Around Machine stands out for its ability to handle various products types, ensuring that the solution is precisely tailored to your specific packaging needs. Say goodbye to one-size-fits-all solutions; we customize it for you!

Experience a whole new level of work efficiency and stability with Trepko machine. Designed with precision engineering, it guarantees high-performance packaging while minimizing downtime and errors.

From delicate confectioneries to robust industrial goods, our machine can handle a vast range of products. No matter the size, shape, or material, we've got you covered.

## Enhanced Process Efficiency

Boost your production output like never before with Trepko Wrap Around Machine. Its streamlined design and advanced automation enable a smooth, rapid, and error-free packaging process.

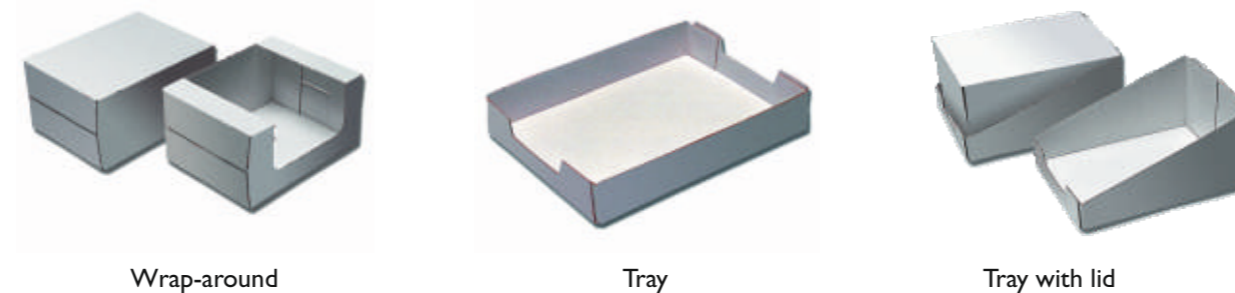

Rest easy knowing that Trepko's machine grants you full control over the glue quantities and stream in each tray, ensuring consistent packaging quality with every batch.

The speed of product entry is customizable in several stages, ensuring smooth handling and packaging, even for the most delicate or unstable products. The input conveyor is intelligently adapted to your specific product, whether it's a belt, index, or other suitable mechanism. No compromise on handling precision!

With the integrated carton blank magazine, enjoy uninterrupted packaging operations. The magazine boasts a capacity for 90 minutes of work without the need for replenishment. Additionally, for added convenience, as an option the machine can automatically switch to another carton size, providing a seamless and hassle-free packaging experience.

## On-Demand Box Formation

The Trepko Wrap Around Machine excels in versatility, seamlessly accommodating diverse packaging formats to meet dynamic market requirements. Its rapid changeover capability ensures efficient production transitions, supported by a user-friendly interface that simplifies operation and minimizes training time. Additionally, its on-demand box formation feature pioneers precision packaging, eliminating tolerance issues and enhancing efficiency by minimizing material wastage.

## Enhanced Process Efficiency

## Performance Features

- Achieve a maximum capacity of 30 boxes per minute, boosting your production efficiency.
- The stainless-steel construction guarantees extended equipment life, ensuring a reliable and durable solution for packaging needs.
- Enjoy a low-noise conveyor belt, providing a smooth and quiet packaging operation.
- Benefit from a 98% guaranteed efficiency, offering peace of mind in your production processes.
- Utilize the hot-melt glue box closure for a secure and efficient sealing solution.

## Perfect Integration with Trepko Upstream and Downstream Equipment

Trepko Wrap Around Machine flawlessly integrates with both Trepko upstream filling machines and further downstream equipment palletizers. This seamless integration ensures a continuous and efficient packaging process from product filling to palletization, eliminating bottlenecks and maximizing productivity.
