

# 86 I

The Trepko butter chopper 86 I Series is used to cut 10-25 kg butter blocks into small pieces for easier handling, such as required for homogenizing and re-packing. The 86 I Series can be integrated with the Trepko butter homogenizer and the comprehensive range of the Trepko brick forming & wrapping machines (the 800 Series). All stainless sanitary design allow for it being hosed down and the easy access for feeding the product onto the conveyor from all sides allows for flexibility in the layout phase.

## TECHNICAL DATA

Type of product	Butter, margarine
Block chopper capacity [kg/h]	up to 2760 *
Thickness of the slice	20 - 95 mm
Block dimensions (length/width/height)	up to 420/370/270 mm
Air consumption	approx. 200 l/min
Power consumption	1,6 kVA

\* depends on the consistency and temperature of the product
